

Adding to this Resource

We welcome you to add to this guide!

If you have experience of Instagram, Tik Tok, Reddit or any other Social Media platform it would really help if you would create a page to help other rebels out.

If you have more information on the existing pages of this book please don't hesitate to add to them. You can find out how to do this on our [Help](#) pages.

What to write about.

Use the existing pages as guides. We are looking for simple information on how to navigate sites, posting and boosting existing posts, how to set up pages / groups / events etc and what we can do to play the algorithms to our advantage.

Who do I write it for?

Rebels have all different levels of skills when it comes to social media. So we recommend starting at the basics - write it for your grandmother. We can add intermediate and advanced pages for each platform if you have more to share!
