

# Intro to Events and Forms

Events and forms are called 'actions' on Action Network. They are a way of getting your email list to interact and respond to your activities and then you are able to report who is more active.

You can use **forms** to do surveys, ask questions or collect more data on interests or skills.

You can use **events** for both in-person events with a physical location or for online talks, meetings, training etc.

You can use standard XRUK questions in your forms/events and this data will be added to the information you have on the subscriber. You can also create your own questions, but these will just be held within the 'action' itself (this is more suited to temporary information e.g. to ask people what shifts they could cover when stewarding for an action with options of 12-2pm, 2-4pm, 4-6pm)

If you need help on this, please book time on our [Training Request Form](#), or [contact the Action Network Data Team](#).
