

1. Functions of A&LS Back Office

The main functions are to:

- Compile and maintain a record of arrestees during an action
- Arrange for supporters at police stations to which arrestees have been taken
- Respond to phone calls to Back Office, mainly from: people reporting arrests; arrestees (custody calls); friends and family members of arrestees; people reporting on incidents such as police misbehaviour; rebels with legal questions

As well as the specific training links elsewhere in this document there is a Module on the Rebellion Academy that will enhance your knowledge of Back Office and its training:
