

Choosing Our Future With Community Assemblies

□ What now to organise locally in our communities? □ With Community Assemblies, people can organise locally to experience the power of deliberative democracy for making progress on issues that are most important to their community. If we want to choose our future, mitigate power and empower our communities, Community Assemblies are a powerful tool in your kit. Community Assemblies can: □ Show what more inclusive democracy looks like; □ Strengthen our local alliances collaborating with other organisations; □ Keep up the pressure on politicians by inviting them along

Why Run Community Assemblies?

Image not found of type unknown

Thanks to **The Big One**, many of our supporter organisations signed up to a **demand for citizens' assemblies** for the first time ever.

We did our shouting outside Parliament. We handed in green cards to speak to our MPs. We pressurised them online via our Digital Rebellion.

It's now time to bring deliberative democracy into our communities!

By organising **local Community Assemblies**, we can...

... **Grow our local networks** by continuing to build local alliances and do outreach;

... **Keep up the pressure** on local politicians;

... **Spread the word about deliberative democracy** and empower people in the process;

... **Start a local campaign or project** in collaboration with other groups.

Would like to hear some sheer inspiration from Jamie Kelsey Fry, talking about upgrading democracy through deliberation at The Big One? Enjoy...

Further Training

The Gardeners plan more training on Community Assemblies in the near future, in collaboration with other XR Circles, including::

- Citizen's Assembly Working Group and Advocacy Network
- Operations
- Facilitation
- Relationships
- Actions
- LG Support

For **Facilitation Training**, the Facilitation Circle holds regular, in depth trainings. These can be adapted to different settings, including Assemblies, but we hope to collaborate on tailored trainings for local groups wanting to set up a Community Assembly soon.

Meantime, you can contact the Facilitation Circle with your questions at

Street Scripts on Citizen's Assemblies

Trust the People TTP are THE expert trainers inspiring and empowering people everywhere to really bring democracy home. Enjoy 8 weeks worth of in-depth and fun training to equip your local community to organise and run an effective magical experience in deliberative democracy. And it's totally **free**, twice per year from the experts in building deliberative democracy

Community At Work Check their: "Facilitator's Guide to Participatory Decision Making". They run online trainings too but there is a hefty price tag. Check their schedule.

Hope For The Future Talking to Politicians whom you may invite to your assembly or even writing to them and meeting them in person can seem daunting. Being prepared ensures you get what you need from dialogue with those in positions of power to bring about change. The General Election is not far off and hustings will be happening... Skill yourself up and boost your confidence in talking to politicians, be they local, regional or national.

Questions and Answers

The Community Assembly Working Group wants to ensure that we all learn from each other. When questions are asked at Open Call meetings, or at training sessions, we will bring them here and try to answer them as best we can, broken down by theme.

Meantime, we also recommend checking out the recording of XR's first Open Call about Community Assemblies, which we will post here soon.

SOFTWARE TOOLS

Q: What was the **crowd sourcing software** used at the Big DIY Assembly to collate everyone's input and ideas, written up from the Breakout Groups?

A: It was **Polis**: <https://www.crowdwisdomproject.org/polis/>
