Questions and Answers

The Community Assembly Working Group wants to ensure that we all learn from each other. When questions are asked at Open Call meetings, or at training sessions, we will bring them here and try to answer them as best we can, broken down by theme.

Meantime, we also recommend checking out the recording of XR's first Open Call about Community Assemblies, which we will post here soon.

SOFTWARE TOOLS

Q: What was the **crowd sourcing software** used at the Big DIY Assembly to collate everyone's input and ideas, written up from the Breakout Groups?

A: It was **Polis**: https://www.crowdwisdomproject.org/polis/
