

Media and Messaging Links

The [Global Media Library and Archive](#) is used to store and share art as well as designs and photos.

There is some overlap between Art and Design, and traditionally a lot of Extinction Rebellion Design work has been done under the Media and Messaging umbrella. For this and other reasons, the [Global Media Library and Archive](#) page is over in the Media and Messaging [M&M How To Guides](#) book on the [Publicity](#) shelf. That book also has a few other links to Design information.

To request leaflets, stickers and posters, please use this [form](#)
