

# Poo Tea Party

## Wivellers (XR Wiveliscombe) Poo Party

[River Creatures Party by Taunton's River Tone but Raw Sewage in the Water turns it into a Poo Party - YouTube](#)

### Brief Action Plan for Sharing

**Location** - busy park, Saturday morning, polluted River Tone in background.

**Props and Costumes** - long table so we can all sit behind, in shot. Tablecloth smeared in sewage with banner "Stop the Poo-lution" and "crockery" which is bits of old plastic taken from the river plus "Crisis, What Crisis?" tea-pot.

Guests are wearing animal heads and human colourful clothing to match their creature.

**Workshop on how to make animal heads being run on Wednesday 1st March on Zoom, with local artist Jenni Dutton, all welcome! (link to follow)**

Also at the party are citizen scientists in hazmat suits (under a fiver at builders merchants) with clip boards, testing the river water in jugs on table, which animals are drinking.

### Soundtrack

**Swimming In It by Beans on Toast** - perfect length and really added something. Whilst it's playing - creatures dance around table, drink lots of river water, eat turd and poo cakes and gradually all die. Citizen scientists express angst and grief. Final scene is a tableau of dead creatures, debris and banners.
