With thanks to Suffolk, whose MP is Therese Coffey, but you can insert your own/relevant MP surname/water authority/organisation...

To the tune of 'My Bonnie Lies Over the Ocean'

(soundcloud link [here](#))

The sewage flows into the river,
The sewage flows into the sea
The sewage flows into the [Deben] [insert own river name here, or just use word 'ocean']
And the blame lies with Therese Covey

Bring back, bring back, oh bring back clean rivers and seas and seas,
Bring back, bring back, oh bring back clean rivers and seas.

The runoffs as bad as the sewage,
With pesticides killing off bees.
They kill off aquatic invertebrates,
And the blame lies with Therese Coffey.

Bring back, bring back, oh bring back clean rivers and seas and seas,
Bring back, bring back, oh bring back clean rivers and seas.

To the tune of 'Hi Ho Silver Lining'

(soundcloud link [here](#))

By the rivers all around the country
You should hold your breath
If you ever dare try to swim there
You are risking death
In the streams that feed the rivers
You can count the turds
As our sewage is no longer filtered
While MPs ignore our words

Chorus:

And at high tide I feel like crying
As all around our coast
We see aquatic life is dead & dying
And so we make this fuss
Because it's obvious

The Tories voted for pollution
In a solid block
But come the next election
They could get a shock
Coffey, Hunt & Poulter,
Churchill, Aldous too (Insert own MPs here)
Suffolks Conservative MPs,
All voted for more poo!

Chorus:

And at high tide I feel like crying
As all around our coast
We see the scummy crud & crap a-rising
And so we make this fuss
Because it's obvious

Repeat 1st Chorus

Chords for guitars/ukes:

Intro: G G

Verses: G G C C F C G D x 2

Chorus: G G7 C D G G7 C DC G G

We Need to Build a Better Future

YouTube version [here](#)

[And here's Belgium singing it!](#)

We need to build a better future
We need to wake up
We need to wise up
We need to open our eyes
And do it now, now, now!
We need to build a better future
And we need to start right now

We're on a planet
That has a problem We've got to solve it, get involved
And do it now, now, now!

We need to build a better future
And we need to start right now

Make it greener
Make it cleaner
Make it last, make it fast
And do it now, now, now!
We need to build a better future
And we need to start right now

No point in waiting
Or hesitating
We must get wise, take no more lies
And do it now, now, now!
We need to build a better future
And we need to start right now.
