

# Zoom Event Description

*Paste this text with your contact details into the Zoom registration, and again into the email when prompted.*

The XR UK Strategy Assembly has spent the last 5 months considering and designing our 2021 Strategy. Now it is time to hit the ground running.

This Do Or Die Strategy Workshop is the starting block. Come join us to learn more about the strategy and discuss the various aspects and goals and how they relate to our group!

Once you have completed this workshop you will not only know the direction XR is taking but you will have identified your own next step to help reach our strategic goals!

Before attending we recommend you read the Do Or Die Strategy Document - **[LINK](#)**

During the session we will be focusing on Radical Inclusion, Nonviolent Direct Action and Mass Mobilisation. We recommend considering how these aspects of the strategy may affect you or how you may be able to push your group towards these strategic goals.

The session itself will be contained within 3 hours:

1. Considering the Strategy and how we got to it
2. Radical Inclusion Discussion & Break Out Session
3. BREAK
4. NVDA Discussion & Break Out Session
5. Mass Mobilisation Discussion & Break Out Session
6. BREAK
7. Internal Growth Discussion & Break Out Session
8. Finding your next step Discussion & Break Out Session
9. Declaring Intent

If you have any specific needs which need to be met for you to participate please don't hesitate to reach out to the facilitators on **(Insert Contact Details)**.

If you are newer to our use of breakout rooms and have some anxiety about being thrown into a small space with strangers you should check out these resources so you know what to expect:

[How to run a Breakout Room](#), goes through why we do things the way we do and what roles are necessary within Break Out Rooms to ensure it runs smoothly.

[How to Actively Listen](#): It's important when having discussions that we listen to each other and not be thinking ahead to what we are going to say next. Sometimes it doesn't feel natural, but some Rebels may want to add a spice to the mix that you hadn't considered!
