

The UK Risk Circle

Support and more information is available from the UK Risk circle - just message us via the Risk Circle Reception channel on the Hub (Mattermost). We will be pleased to offer you help and support as needed.

The Risk circle has been created to provide information and support to circles in recognising and reducing the impact of risks that could seriously hamper the circle's mandate or existence. It aims to create a positive and open culture where circles understand their responsibility to minimize the exposure of XRUK's purpose, to the risks falling within their circle's mandate.
